Phil Higdon

Junior Web Designer

Throughout my career, I have gained diverse experiences within the construction and logistics industry. These experiences have nurtured my curiosity and led me to explore the world of HTML, CSS, WordPress, and various programming languages. To enhance my expertise, I have undertaken multiple courses on Udemy and a bootcamp from Open Classrooms, immersing myself in the art of coding and web development.

Work experience

Since 2007

Unable to work
none none
This was due to illness

2007

Administrator
Computacenter Hatfield
In this role, I handled unboxed customer returns and entered the relevant information into the internal computer system. Additionally, I ensured that returns were accurately assessed for warranty status.

2003

Yard Hand
Jewson's Builder Merchants St. Albans
During my tenure, I engaged with both builders and the public. My responsibilities encompassed preparing orders for delivery, as well as loading and unloading vehicles. Moreover, I operated a counterbalance forklift truck, efficiently managing inventory and ensuring smooth warehouse operations.
